Stage Two of the Northcote Development takes shape

Stage two of the Northcote Development is about to get underway with planning and preparatory work advancing well, says Precinct Director for HLC Robert Graham

The first new homes in stage one of the development are completed and Housing New Zealand tenants have moved in. Stage one is for 59 new state houses, most of which will be completed by August this year.

Mr Graham says stage two, which is bigger than originally anticipated, will provide 365 new homes: 225 new state houses, and 140 new homes for the market, of which 77 will be offered in a more affordable price range.

Homes in stage two will be a mix of stand-alone houses, terrace houses and apartments.

Mr Graham says Housing New Zealand is in communication with households affected by the next stage of the development, which will see around 80 old state houses removed or demolished to make way for the new homes.
